Pooch Prints

Every dog has its own autograph. Take a piece of cardboard and apply a thin layer of water color paint to the cardboard. This should be a little larger than the size of your dog's paw. Have an adult help you.

Carefully press your dog's paw into the paint and then place the paw firmly on a white piece of paper. Lift the paw off the paper and clean the paws with soap and water.

You can do this for greeting cards, place mats for the doggie bowl, or frame it for a picture in your room.

Remember, some dogs don’t like to have their paws touched. If this is the case, this activity is not for you.
