

Lawrence County 4-H Fair Results

On June 1, Illinois Extension announced that in-person event though July 31 would be postponed or moved to an online platform. Lawrence County 4-H General Projects and Livestock exhibitions were conducted online using the digital exhibition platforms FairEntry.

During July 15 through July 23, Lawrence County youth uploaded pictures or slide shows of their general projects and videos of their livestock. Judging took place July 16 through July 28 online through FairEntry. The results have now been placed, and FairEntry will be going live for public viewing. The public may view Lawrence County youth's projects by utilizing this link fairent.com/Fair/Results/13993. One may view the projects by clicking on the youth's name, images, and video links will appear. Viewing will be open from August 4 to August 18.

Samantha Gaither, the 4-H Program Coordinator for Lawrence County, thanks to everyone for participating in the online judging opportunity. Even though the in-person fair did not take place this year, it was still a great learning experience for the youth of Lawrence County.

University of Illinois Extension continues to follow the guidelines of the Illinois department of public health and the University of Illinois to ensure the health and safety of staff, volunteers, and program participants.
