

NATIVE PLANT RESOURCES

Lady Bird Johnson Wildflower Center – This website is a native plant database to explore 25,199 North American native plants. Search by plant name, family or planting requirements.

Missouri Botanical Garden's Plant Finder - Look up, view a photo and read about the over 7,500 plants which are growing or have been grown in the Kemper Center display gardens (plus selected additions) by scientific name, common name and/or selected plant characteristics.

Illinois Wildflowers – Descriptions, photographs, and range maps of wildflowers and other plants in Illinois. These plants consist primarily of herbaceous flowering plants and some woody plants, whether native to Illinois or introduced from somewhere else.

Illinois Groundwork – A plant finder for rain garden plants. Also includes resources on design, installation and maintenance of rain gardens.

Field Museum's Field Guides – Free, accessible resources to help identify plants, animals, and fungi. These guides can be helpful in identifying aspects of the natural world.

National Wildlife Federation Plant Finder – This website is designed to help you find the best species to attract the butterflies and birds in your area through your zip code.

Illinois Pollinators – Plant selector tool to filter out an array of native plants to meet your conditions and preferences. Also includes a few garden design plans to replicate on your landscape.

Xerces Society's Pollinator Friendly Plant Lists - These lists include key flowering plants that provide pollinators with nectar and pollinators. Filterable by state.

Red Oak Rain Garden Native Plant Handouts – These guides utilize species from the Red Oak Rain Garden, planting techniques, and designs that can be replicated in your own landscape.

Morton Arboretum – Search by keywords, names, or attributes to view detailed tree and plant information compiled by Arboretum experts.

Illinois Native Plant Society Plant Sales – Search to find native plant sales near you. The listings will take you to a page with all the detailed information about the sale.

West Cook Wild Ones – Local chapter of Wild Ones with resources, events and plant lists on native plants and conservation landscape practices.

Homegrown National Park - Grassroots call-to-action to regenerate biodiversity and ecosystem function by planting native plants and creating new ecological networks. This site has a resource directory of landscapers, organizations, and sellers that support their mission.

USDA NRCS Plant Database – This database provides standardized information about vascular plants, mosses, liverworts, and lichens of the U.S. and its territories.

Illinois Green Industry Association - Connecting people with local growers, garden centers and landscape professionals throughout Illinois. Includes plant finder and sources.
