IN MEMORIAM

"In Memory of Bill Strawson (1960-2023) - a longtime supporter of 4-H and FFA, Mr. Strawson believed that cattle farming wasn't just a profession, but a way of life that he was proud to share with his family and with the youth he mentored. Mr. Strawson's invaluable support to 4-H leaves a lasting impact. He will be missed by those who knew him and those who continue to be impacted by his investment in the mentorship of youth interested in beef projects."

2024 Quality Assurance & Ethics Program

For 2024, all youth enrolled in livestock project areas Poultry, Horse & Pony, Rabbits, Dogs, Small Pets, and Cats are required to complete the Quality Assurance & Ethics Program. This must be done to stay enrolled in the livestock project area.

The QAEC training can now be accessed in the Clover Academy section of the ZSuite Enrollment System. ZSuite can be accessed at <https://4h.zsuite.org/>. Families can access directions for completing the course at <https://go.illinois.edu/TakeQAEC>. This document is linked on the Animals Science page on the Illinois 4-H website, and appears in the resource library on that site. The training is available on-line and once completed it is good for a lifetime in 4-H. If the 4-H'er has more than one species, they do not have to take the QAEC for each one, but it is recommended.

If QAEC is not completed, the 4-H'er will be pulled from livestock project area and therefore not eligible to exhibit at the county 4-H fair or the Illinois State Fair Junior Show. They would be eligible for State Fair Open Shows.

The deadline for completing QAEC in Kankakee County is July 1, 2024.

YQCA Training 2024

Youth enrolled in the following 4-H animal projects must take the YQCA training: **Beef cattle, Dairy cattle, Goats, Sheep and Swine**. All 4-H exhibitors of these animals will be required to certify in the YQCA program *yearly*. Youth must either attend a face-to-face class or certify on-line via the website <https://yqcaprogram.org>

The YQCA is a livestock quality assurance program that is replacing PQA which no longer exists. It also replaces the Quality Assurance & Ethics (QAEC) program for youth with the following species: beef cattle, dairy cattle, goats, sheep, and swine.

4-H members with cats, dogs, horses, poultry, rabbits, and small pets are still required to take the once in a lifetime Quality Assurance & Ethics (QAEC) program.

The cost for the face-to-face training is \$3 payable online at registration and \$12 for the online version. Prior to registration, email Barbara Dubravec, bud23@illinois.edu. Families may email the name of each youth. No money will be taken at the Extension Office.

Kankakee County Face-to-Face Training dates & locations will be announced.

If YQCA is not completed, the 4-H'er will be pulled from livestock project area and therefore not eligible to exhibit at the county 4-H fair or the Illinois State Fair Junior Show. They would be eligible for State Fair Open Shows.

The deadline for completing YQCA in Kankakee County is July 1, 2024.

YQCA Training Dates

Friday, April 12, 2024, 6:00 pm at the Extension Office.

Friday, May 11, 2024, 9:00 am at the Extension Office.

4-H PORK PREMIERE

Superintendent..... Andrew Frerichs

Weigh-in: Monday, July 22, 2024, from 5:30 p.m. - 6:30 p.m.

Judging on Hoof: Monday, July 22, 2024, at 7:00 p.m., Beef Barn

Carcass Judging: Saturday, July 27, 8:30 a.m. at Chenoa Locker, 8 N Veto St., Chenoa, IL 61726

Exhibits will be placed based on a combined carcass merit and pounds of carcass per day of age score. To be eligible for awards, all carcasses must meet the following minimum standards:

1. Pig must be farrowed after January 20 of current 4-H year. Both purebred and crossbred pigs are eligible. The pigs **do not** have to be farrowed by the exhibitor.
2. Each exhibitor may nominate a maximum of 25 barrows at the time of tattooing. Pigs must be castrated before they are tattooed. NO pigs will be tattooed until they are castrated.
3. Barrows must be nominated, ear-notched and tattooed with a box "K" before they are 35 days old. Pigs cannot weigh more than the equivalent of 1.0 pounds per day of age when tattooed.
4. Tattooing will be supervised by the Extension Staff Member or someone else appointed by the 4-H Ag Committee. Each nomination form must be completed in triplicate. One form is to be retained by the exhibitor, a second copy is retained by the Extension Office, and the third copy is sent to the superintendent.
5. Each exhibitor will be allowed to enter one barrow in the premiere class.
6. To be eligible for premiums, carcasses must meet the following standards:
 - a) Minimum hot carcass weight of at least 170 pounds.
 - b) Maximum hot carcass weight of 225 pounds.
 - c) Minimum 10th rib fat thickness of 0.50 inches.
 - d) Minimum carcass length of 30.5 inches.
 - e) Maximum loin muscle area of 8.0 square inches allowed in calculating percent FFL and/or Pounds of Acceptable Standardized Fat-Free Lean Gain per Day on Test.
 - f) Tenth rib fat depth, length and loin eye area based on hot carcass weight as follows:

HOT CARCASS WEIGHT

	<u>170-179</u>	<u>180-189</u>	<u>190-199</u>	<u>200-225</u>
Tenth rib fat depth, maximum inches	.90	1.00	1.10	1.20
Loin eye area, minimum square inches	5.25	5.50	5.75	6.00

- g) The loin muscle is evaluated for color, marbling, and firmness. The following scoring systems will be used: **Color** - NPPC Official Color Standards range from 1.0 (pale pinkish gray to white) to 6.0 (dark purplish red). Loin muscle color scores of 2.0 or lower and 6.0 are disqualified. **Marbling** – NPPC Official Marbling Standards range from 1.0 (1% intramuscular fat to 10.0) (10% intramuscular fat). Loin muscle-marbling scores of greater than 6.0 are disqualified. **Firmness/Wetness** – A three-point scale of assessing wetness and firmness of loin muscle will be utilized: 1 = exudative and soft; 2 = moist and firm; 3 = dry and very firm. Loin muscle firmness and wetness scores of 1 will be disqualified.
- h) Pork carcasses that meet the requirements listed above will be ranked by percent fat-free lean (regular carcass show) or pounds of acceptable standardized fat-free gain per day on test (premiere carcass show) using the following equations:
 1. Regular Carcass Show: Pounds of FFL = 8.588 - (21.896 X 10th rib fat depth, inches) + (3.005 x 10th rib loin muscle area, square inches) + (0.465 x warm carcass weight, pounds). To convert to percentage FFL, divide by warm carcass weight and multiply by 100.
 2. Premiere Carcass Show:

Pounds of Acceptable Standardized Fat-Free Lean Gain per Day on Test =	<table style="width: 100%; border-collapse: collapse;"> <tr> <th style="text-align: left; border-bottom: 1px solid black;">Pounds of Fat-Free Lean at Ending Weight</th> <th style="text-align: left; border-bottom: 1px solid black;">Pounds of Fat-Free Lean at Initial Weight</th> </tr> <tr> <td style="padding-left: 10px;">8.588 + 0.465 x Adj. Exhibitors must be enrolled in the Visual Arts project category in which they are exhibiting. Exhibitors are encouraged to date the project when it is made. Exhibitors must be able to carry or cart their exhibits across the fairgrounds from the parking lots. All visual arts exhibits are evaluated using a visual arts rubric which takes into account correct use of design elements; craftsmanship; and creativity.

Articles exhibited must be an original design created by the exhibitor (except in Heritage Arts, which may follow a pattern, AND Fiber-Non-Original Ages 8-10 ONLY). Copyrighted or trademarked designs are not acceptable; this includes team, school logos and/or characters from movies such as Mickey Mouse, Iron Man, etc. Kits and preformed molds are not considered original and are not acceptable in any Visual Arts Class. Combining parts of different patterns (pictures, photographs, images from the internet or a magazine) with the member's own ideas can result in an original design, but simply changing the color, pattern and/or size of a pattern does NOT make the design original. This also applies for ideas found on a site such as Pinterest. If you see something on Pinterest that you like, you can use that idea as your inspiration, however, create something which is fundamentally different. It **MUST NOT BE AN EXACT REPLICA OF** something the judge can search for and find on Pinterest. The exhibit may combine parts of different patterns and/or ideas with the concepts of the member, however changing the color or changing the size of the item or pattern used does NOT make it original. If you create an exact replica of what you see somewhere else, it is not your original design. If a photo, sketch, or other idea source was used, submit it with your entry, firmly attached to your exhibit. Be prepared to explain how and where you got the idea for this project.

Copyrighted or trademarked designs are not acceptable; this includes team logos, school logos, and/or characters from movies such as Mickey Mouse, Iron Man, etc. Kits and packaged plastic block sets are not considered original and not acceptable in any Visual Arts Class.

Use of the 4-H Clover: Chartered 4-H clubs and enrolled 4-H members are authorized to use the 4-H Name and Emblem. This includes permission for an enrolled 4-H member to use the 4-H name and emblem in exhibits created for personal use

and as part of 4-H sponsored events. This includes 4-H decorated cookies, a 4-H clover printed for use in a scrapbook or included as part of any other 4-H exhibit. Use of the green clover shaped image is not protected. The 4-H “emblem” is distinguished by the four H’s that signify Head, Heart, Hands and Health. **No creative rendering, changes in color or shape of the official 4-H emblem is allowed.**

NOTE – Any use of the 4-H name and emblem on items intended as **gifts or for sale locally** requires prior permission from your local Extension office. Your Extension office will be able to provide you with the form which must be signed by the Extension County Director. Any uses of the 4-H name and emblem for sale or promotion **online, and/or in statewide events** should be signed by the Illinois 4-H Program Leader (Illinois4H@illinois.edu).

CLOVERBUD GROUPS

Youth ages 5-7 may enroll in 4-H as members of a Cloverbud group. Children under age 8 are not developmentally ready to participate in the traditional 4-H program and club meeting. Cloverbuds form groups, not clubs. Cloverbud groups are leader-directed and hold short activity-based meetings. The 4-H Cloverbuds' program is designed to introduce 5-7-year-olds to a variety of 4-H experiences. They do not elect officers, give talks, or hold regular business meetings. They do an activity and talk about what they have done or process the information to learn from it. The adult/child ratio for these groups is five to six children per one adult leader.

The Cloverbud program is noncompetitive! Cloverbuds do not participate in competitive events, contests, shows, or raise animals as a 4-H project and are not eligible to receive premiums. Cloverbud groups are encouraged to share a learning activity at the fair.

Adults interested in forming a new Cloverbud group are required to complete the Extension Volunteer Application process and participate in 2-3-hour leader training. The approved Cloverbud curriculum developed by Ohio State University will be provided.

GENERAL REQUIREMENTS

These Exhibition Health Requirements apply to all livestock present at the fair including those animals that are not entered in competitive events.

1. Exhibitors are required to familiarize themselves with all rules applicable to their exhibits.
All out-of-state animals require an entry permit. Entry permit numbers are available online at <https://entrypermit.agr.illinois.gov/Login.aspx>.
2. All animals, except as noted, shall be accompanied by a Certificate of Veterinary Inspection (CVI) which shows that the animal meets all health requirements for the State of Illinois. CVI's shall be made available to the Bureau of Animal Health Personnel on request. If an official electronic CVI is utilized, the exhibitor should be able to log on and show the Bureau of Animal Health Personnel the completed CVI.

CVI means a legible record made on an official form from the state of origin which has been issued, signed, and dated by an accredited veterinarian and which shows the name and address of the animal's owner or exhibitor and the results of all required tests or vaccinations. A CVI shall list only one animal identification per line; shall be presented on the form on which it was initially issued; and shall not be corrected, changed, or altered in any manner.

3. All animals shall be officially identified. The animal(s) official identification shall be recorded on the CVI.

Animal identification number (AIN): A numbering system for the official identification of individual animals in the United States that provides a nationally unique identification number for each animal. The AIN consists of 15 digits, with the first 3 being the country code (840 for the United States or a unique country code for any U.S. territory that has such a code and elects to use it in place of the 840 code).

4. If animals are from tuberculosis accredited, brucellosis certified, pseudorabies qualified, or brucellosis validated herds, the identifying herd number(s) along with the date of the last herd test(s) shall appear on the CVI. 2
5. CVIs for out-of-state livestock shall be void thirty (30) days after issuance.
6. CVIs for Illinois-origin livestock shall be void ninety (90) days after issuance.
7. All livestock shall be subject to examination upon entry to any Illinois fair or exhibition. Any animal showing evidence of infectious, contagious or communicable diseases shall be immediately withdrawn and held in quarantine at the owner's risk and expense until properly treated and recovered, or until the animal is released to return to the owner's premise.

Any livestock infected with scabies, mange, active lesions of ringworm, sore mouth, or multiple warts which are easily visible without close examination shall not be permitted to exhibit and are subject to quarantine or removal from the fairgrounds.

Sheep and goats with caseous lymphadenitis as evidenced by draining abscesses shall not be exhibited and are subject to immediate quarantine or removal from the fairgrounds.

In the event of the suspicion of or diagnosis of a foreign animal disease, emerging animal disease, or other actionable disease, animals may be subject to quarantine on the fairgrounds until such time that it is determined that the disease is no longer a threat.

8. Illinois Department of Agriculture personnel or designee may collect blood, tissue, milk, or urine samples from any animal being exhibited and/or raced at any Illinois fair to test for the presence of illegal drugs or banned substances. Examination techniques, such as ultrasound, may also be used at any time while the animals are on the grounds of any Illinois fair or exhibit.

The Illinois Department of Agriculture or designee may collect urine, blood, tissue, or other test samples from exhibition animals at the time of slaughter.

9. All exhibitors of animals at any Illinois fair or exhibition shall comply with the provisions of the Illinois Humane Care for Animals Act. If violations are observed, the animal(s) will be excused from exhibition and ordered removed from the grounds with all awards being forfeited.
Any practice or deviation from normal, accepted care, including physical, medical or mechanical application, shall constitute a violation of show rules and may result in the animal(s) disqualification and removal from the fairgrounds.
10. Any Illinois cattle, bison, cervidae or goats being exhibited in non-accredited free states must be isolated from the remainder of the herd/flock upon return to Illinois and retested for tuberculosis 60-120 days post-entry.
