

4-H TIC-TAC-TOE POETRY CHALLENGE

April is National Poetry Month and it's time to get your creative juices flowing!

Directions: First, choose a prompts box and write some lines around the prompt (don't try to make it a poem yet, just write some info!) Now get ready to transform it into a poem. Make the ending word of each line rhyme, go free verse and make it sound like you like, make it a haiku (where the first line has five syllables, the second has seven syllables, and the third has five syllables.) Or write a different kind of poem! Write three different poems using three different prompts to make it a tic tac toe - go across, up and down or diagonal. Try to write three different kinds of poems!
