Bureau County 4-H Fair Guidelines

Youth Protection Policies: University of Illinois Extension has adopted several procedures to help ensure the safety of youth involved in its programs.

Procedures include the careful selection of adults who work with youth. Barriers to harassment/abuse through policies on staff behavior. Education on Youth Protection Polices to both youth and adults.

Barriers to Abuse

- Treat others in a courteous, respectful manner and demonstrate behaviors of a positive role model for youth.
- Recognize that verbal and/or physical abuse and/or neglect of youth is unacceptable in 4-H
 youth programs and report suspected abuse to authorities.
- In order to protect individuals, avoid being alone with a single child.
- Respect privacy of youth members.
- Do not possess, consume or be under the influence of alcohol or illegal substances while responsible for youth in 4-H activities, nor allow 4-H youth participants under supervision to do so. All 4-H activities and events are to be alcohol and drug free.
- Tobacco use during 4-H sponsored events is prohibited.

- Although adults may direct children to proper procedures and rules, care should be exercised in the manner the message is delivered.
- During Extension activities, all contact with youth or adults by Extension staff or Extension volunteers should be done in the presence of others.
- All unusual circumstances and incidents must be immediately brought to the attention of Extension staff and an Incident Report form must be completed within 24 hours.
- It is the adults' responsibility to ensure the safety and best interest of all. Any signs of concern or injury should be immediately reported on behalf of the youth. Parents are welcome at all Extension youth activities and are encouraged to become involved in the many opportunities presented.

Alcohol Statement

No alcohol will be allowed at the 4-H Fair. This pertains to both adults and youth. Anyone possessing alcohol will be asked to leave the fair along with his or her entire family. Remaining participation at the 4-H Fair will be prohibited and all exhibits will be removed. This will be enforced. Failure to comply will result in police notification. We are also requesting the fair board to allow city or county police to patrol the fairgrounds at regular intervals during the night.

Thank you for your assistance in making our youth event a safe and enjoyable place for everyone!

NOTE: If applicable for their class and display, exhibitors must bring their own computers for demonstration purposes; computers will not be provided. Internet access will not be available.

- Exhibits in classes 50285, or 50286 are designed to be used with LEGO Mindstorms (NXT, EV3, Lego Inventor, Lego Spike Prime).
- Any other programmable robot kit such as Arduino or Raspberry Pi, should be exhibited in Robotics 3 (50292).
- Members should bring their robot to the state fair.

Robotics 1 (SF 50285) Robotics 1 with EV3 or go.illinois.edu/RoboticsActivities1 – Required

Exhibitors will design, build and program a robot that uses at least one sensor to autonomously follow a path, respond to and/or avoid obstacles. The robot must be autonomous and cannot be controlled remotely. Exhibitors in this class must use at least one sensor in their robot design. Exhibiting youth must complete and display a build log which contains a diagram (drawing or 3D rendering) of their robot with each of the key components labeled, an explanation of why they made the design/programming decisions they made, and a short journal sharing what they learned about the engineering design process and programming throughout their work in the project (as well as while preparing the exhibit). In addition, each youth must bring their program code (on laptop or on paper), and their robot to demonstrate. The robot and obstacles must be able to fit on a 4' x 8' robotics table when being judged, and a 2' x 2' area when being displayed.

Robotics 2 (SF 50286) Robotics 2: EV3 N More or go.illinois.edu/RoboticsActivities2 – Required

Exhibitors will design, build and program a robot that uses sensors and programming to complete two of the selected challenges from the 2025 4-H State Robotics Challenge. The robot must be autonomous and cannot be controlled remotely. Eligible challenges will be marked in the Challenge Documents and on the Illinois 4-H Robotics website (go.illinois.edu/4HRoboticsProjectPage). Exhibiting youth must complete and display a build log which contains a diagram (drawing or 3D rendering) of their robot with each of the key components labeled, an explanation of why they made the design/programming decisions they made, and a short journal sharing what they learned about the engineering design process and programming throughout their work on the project (as well as while preparing the exhibit). In addition, each youth must bring their program code (on laptop or on paper), and their robot to demonstrate. The robot and obstacles must be able to fit on a 4' x 8' robotics table when being judged, and a 2' x 2' area when being displayed.

Robotics 3 (SF 50292) go.illinois.edu/4HRoboticsProjectPage

Open to youth enrolled in Robotics 3, but may also include youth in Robotics 1 or 2 if the exhibit meets the guidelines. Exhibit an original robot, either homemade or a kit that does not fall under Robotics 1 or 2 that can complete a task using MULTIPLE sensors. The robot must be autonomous, Text Based (Python, C etc.) and cannot be controlled remotely. If a robot kit is used, then some parts of the robot must be built using other components such as wood, plastic or metal. The robot can include any type of motors, pneumatics or sensors. This class can also be used for LEGO Mindstorms/Spike Prime, etc. or Vex kits where the exhibit does not fall under Robotics 1 or 2 exhibit options.

Autonomous control of the robot may also be achieved using an "open source" platform such as Arduino or Raspberry Pi and can be programed using a coding language that is publicly available. Exhibitors must complete and display a build log which contains a diagram (drawing or 3D rendering) of their robot with each of the key components labeled, an explanation of why they made the design/programming decisions they made, and a short journal sharing what they learned about the engineering design process and programming throughout their work in the project (as well as while preparing the exhibit). In addition, each youth must bring their program code (on laptop or on paper), and their robot to demonstrate. Exhibits in this class must be able to fit on no more than a 6' x 2' table (or ground footprint) and must be fully assembled 15 minutes prior to the judging start time. No Exceptions.

All exhibits should be original designs made with everyday objects and materials. Exhibits with purchased kits will not be accepted. Exhibitors are also required to bring their Junk Drawer Robotics Youth Robotics Notebook with the sections completed for the project they are exhibiting, including the sections leading up to the activity they are exhibiting. For example, if a youth is bringing Activity E from Junk Drawer Level 1, they should have robotics notebook sections A-E completed. For Innovation Class, all sections should be completed for your level.

Junk Drawer Robotics 1 (SF 50287) Junk Drawer Level 1: Give Robotics A Hand & Youth Notebook – Required Exhibit any item from the "To Make" activity from the Junk Drawer Robotics Level 1 Book. Be sure all robotics notebook sections within the module being exhibited are filled in.

Junk Drawer Innovation Class (SF 50290) Youth Notebook – Required (See Level Above)

This class is open to any youth in Junk Drawer Robotics 1, 2, or 3. Exhibit any item that incorporates two or more activities into a single robot/machine to accomplish a task. There must be a clear task being accomplished with an end goal in mind. Feel free to think outside of the box as you find ways to combine the principles and mechanics to make something new. You will be judged on your creativity and ability to explain your design choices in addition to the construction and performance of your robot.

Articles exhibited must be an original design created by the exhibitor (except in Heritage Arts, which may follow a pattern, AND Fiber-Non-Original Ages 8-10 ONLY). Copyrighted or trademarked designs are not acceptable; this includes team, school logos and/or characters from movies such as Mickey Mouse, Iron Man, etc. Kits and preformed molds are not considered original and are not acceptable in any Visual Arts Class. Combining parts of different patterns (pictures, photographs, images from the internet or a magazine) with the member's own ideas can result in an original design, but simply changing the color, pattern and/or size of a pattern does NOT make the design original. This also applies for ideas found on a site such as Pinterest. If you see something on Pinterest that you like, you can use that idea as your inspiration, however, create something which is fundamentally different. It MUST NOT BE AN EXACT REPLICA OF something the judge can search for and find on Pinterest. The exhibit may combine parts of different patterns and/or ideas with the concepts of the member, however changing the color or changing the size of the item or pattern used does NOT make it original. If you create an exact replica of what you see somewhere else, it is not your original design. If a photo, sketch, or other idea source was used, submit it with your entry, firmly attached to your exhibit. Be prepared to explain how and where you got the idea for this project.

Use of the 4-H Clover: Chartered 4-H clubs and enrolled 4-H members are authorized to use the 4-H Name and Emblem. This includes permission for an enrolled 4-H member to use the 4-H name and emblem in exhibits created for personal use and as part of 4-H sponsored events. This includes 4-H decorated cookies, a 4-H clover printed for use in a scrapbook or included as part of any other 4-H exhibit. Use of the green clover shaped image is not protected. The 4-H "emblem" is distinguished by the four H's that signify Head, Heart, Hands and Health. No creative rendering, changes in color or shape of the official 4-H emblem is allowed.

University of Illinois Extension - Bureau County
4-H Fair Risk Management Plan

Insurance and General Liability

All 4-H volunteers leaders who are enrolled in the 4-H program have general liability coverage through University of Illinois. This coverage is provided when they are conducting or being involved in a 4-H activity that extends the educational service of the Extension service to the 4-H clientele. Volunteers also need to carry liability and medical coverage as part of their auto insurance, to be used in instances where they are hauling riders, equipment, or animals in their own private vehicles.

University of Illinois Extension purchases liability coverage for horse show activities, which include jumping and gaming. This insurance protects these individuals from claims made against them because of their activities on our behalf. So if a 4-Her is injured and makes a negligence claim against the 4-H leader or group of 4-H volunteers, the policy will respond.

Risk Reduction Steps

General Operations

A grounds safety check will be done by Extension staff to make sure facilities are ready to receive participants and animals.

Extension staff will notify the police and fire departments of the 4-H activities planned.

All pertinent 4-H Fair forms will be easily accessible at the secretary's building.

All animals will be unloaded in designated areas. 4-H members, parents, and leaders will make sure paths are clear of public traffic when unloading.

Risk to Personnel

Extension staff, 4-H fair judges, and superintendents will be trained, prior to the fair, on the following issues:

- Liability issues
- Risk management plan- Handling of grievances
- Animal rights issues
- Emergency action plans
- Insurance issues

All judges, superintendents, and organizational leaders will read and be familiar with the Bureau County 4-H Fair Risk Management Plan. A copy of the plan is in the judges/superintendents folders.

All judges and superintendents will be asked to carefully observe the skills of members in handling their equipment and animals around other 4-H members and the public. If the safety of the 4-H member, the animal, or the public is in danger, the superintendent has the right to take preventive action.

All judges, superintendents, and 4-H volunteers will be asked to report any suspicions they have regarding child abuse, drug or alcohol abuse, theft, or any other inappropriate behavior to Extension staff.

Risk to Participants

4-H members will abide by the 4-H Behavior Guidelines for participation at 4-H events. Members not abiding by these rules will be subject to provisions outlined in the guidelines. (These guidelines are provided to new members and can be obtained through 4-H club leaders or the Extension office.)

4-H exhibitors will be told where and whom to go to regarding first aid treatment for participants. A first aid kit is available at the secretary's building. Extension staff will provide information for vet care services if needed.

4-H exhibitors will be informed of emergency action procedures and evacuation plans used regarding major accidents or injury, missing persons, and tornadoes or severe weather.

4-H horse members will be told that "kicking" horses must wear a red ribbon in their tail.

4-H members will be informed as is appropriate at evening activities, to move about the fairgrounds in groups of 2 or 3, as a safety precaution.

4-H members will be informed to keep obstacles out of the aisle, make sure animals are securely tied or in their pen, and keep grooming chutes and stands out of the way to facilitate public traffic flow.

4-H members will be encouraged to work with their own animal with minimal assistance from their parents for safety and control of the animal. Giving control of the animal to a person not familiar with that species should be limited to reduce the risk of having animals out of control.

Risk to Public

Signs reading "Please Use Caution – High Level of Animal Activity" will be posted in entrances to barns and show paths. Signs reading "Horse and Riders Only" will be posted at paddock gates, warm up arena, and wash racks.

Signs reading "Don't Feed the Animals" will be posted in each barn.

Signs reading "Please Don't Stick Fingers or Other Objects in Cages" will be posted in the rabbit and poultry buildings.

Signs reading "Not Responsible for Accidents" will be posted throughout the fairgrounds.

Risk to Property/Building/Equipment

Any act of vandalism or damage to property, buildings, or equipment, caused by 4-H participants or animals, will be reported to Extension staff.

Death, illness, or injury of an animal is the liability of the owner.

Stolen equipment or exhibits is a risk taken by the 4-H exhibitor. Exhibitors are reminded to label all personal equipment, keep it in a locked box when not in use, and keep track of it if lent out. Monitors are working in the exhibit buildings, but this is not a guarantee of safety of items.
