4-H PLEDGE

I pledge my HEAD to clearer thinking,
my HEART to greater loyalty,
my HANDS to larger service, and
my HEALTH to better living for
my club, my community, my country
and my world.

WE BELIEVE

- that youth and adults should work together to set reachable, realistic and challenging goals
- in rewarding and measuring progress, not perfection
- in youth “Learning by Doing”
- positive youth development includes a meaningful relationship between youths and adults
- that a community can positively impact the development of a child

4-H MOTTO

To Make the Best Better

- that families are key to positive youth development
- in promoting healthy respect for adults in the community
- in respecting diversity/uniqueness of individuals, not fearing it
- in individual responsibility for yourself, family and community
- that youth are more important than the project
- in promoting and developing citizenship and community responsibility

LETTER TO 4-HERS

We are excited that you decided to join the youth in Whiteside County who are learning new skills, discovering more about themselves and forming friendships through the 4-H program. This Show Book contains important information about the upcoming 2026 4-H Show—please hold on to it even beyond the days at the fairgrounds!

4-H Shows are meant to be fun, educational activities for 4-H members where they have an opportunity to demonstrate their accomplishments and hard work in project areas and within the community. Exhibits should represent each 4-H member’s knowledge, abilities, and best effort.

We are sure you will find the 4-H program a very rewarding experience. One important thing to remember is that you gain from 4-H what you put into it. We encourage you to grow and learn as we, together, follow the 4-H motto, “To Make the Best Better”. Please always keep in mind that ribbons and awards should not be the focus of any 4-H activity. Rather, learn to celebrate the process of reaching for your goals—from trying, to striving, and growing each year!

WHAT IS ‘CONFERENCE JUDGING’?

In the 4-H program *projects* are evaluated, not the 4-H member. Conference judging means that you, the 4-H member, and the judge have a discussion about your project and what you learned. Judging is a learning experience. From judging you can learn what you did well and how you can improve. A project exhibit does not measure all that you learned but is an example of what you have done. Parents/guardians, leaders and bystanders are not a part of the judging process. During your conference judging time the judge will encourage you to talk about your project by asking you questions. Be prepared to tell what you were trying to do with your project and describe the methods used to accomplish it. Feel free to tell the judge any information you want them to know about your project and what you learned. Listen carefully to the judge so that you can accept constructive criticism and learn from it. Remember, judging comments can be helpful, but they are only one person’s evaluation. Also remember our judges are volunteers. Please be courteous and thank them for their input.

If you need a reasonable accommodation to participate in the 4-H Show, please contact the Whiteside County 4-H office at least two weeks prior to the event: University of Illinois Extension, Whiteside County, 12923 Lawrence Road, Sterling IL 61081, phone: 815-632-3611, email: lancast@illinois.edu

10. Only items listed for exhibition will be judged. Exhibitors should refer to each exhibit department for rules and policies relating to that exhibit.
11. Conference judging will be used in all project areas. (See the Welcome Page for more on Conference Judging.) 4-Hers will show their projects to the judge in each area. Parents cannot participate in the judging process. However, parents of Cloverbuds or first year 4-H members may accompany their child to the judging area.
12. If the exhibitor requires reasonable accommodation to participate, please contact the Extension office or an Extension staff member **two weeks** prior to judging.

Animal Exhibits:

18. Animal health requirements found on the Illinois Department of Agriculture website. See page 10.
19. If you are showing Dairy, Beef, Sheep, Swine or Goats you must complete the Youth for the Quality Care of Animals (YQCA) training by June 1 of the current year. This training must be completed *each year*. Please send your certificate to lancast@illinois.edu. If you are showing Poultry, Rabbits, Horses, Cats or Dogs you must complete the Quality Assurance and Ethics Course (QAEC) *one time* in your 4-H career and before June 1 of the current year. This training can be found on [ZSuite](#) under Clover Academy.
20. Exhibitors are responsible for their own animals. 4-H exhibitors showing animals will be familiar with and practice proper care and showing of the animal species.
21. 4-Hers must exhibit projects in the correct class at the proper time. 4-H members are responsible for knowing show order and being in the class at the proper time.
22. Due to conflicts with livestock judging times, another registered 4-H member from the same county may show a member's animal project.

Premiums:

23. Exhibitors are eligible to receive premiums for *one entry per class*.
24. *County* projects (not eligible for the IL State Fair) will not be paid a premium.

Tax Implications for Prizes, Gifts or Awards

Program participants (including minors) will be required to provide their social security number or foreign national tax ID number prior to receiving a premium, prize, gift or award to ensure proper IRS reporting as required by law. This sensitive information is kept confidential and handled through security-protected software. Participants will not be eligible for a premium, prize, gift or award if social security or foreign national tax ID information is not provided.

4-H Premium Information

The Department of Agriculture shall use its best efforts to secure sufficient appropriations to fund premiums. **In any year for which the General Assembly of the State of Illinois fails to make an appropriation sufficient to pay such premiums, premium amounts may not be accurately reflected in this document.**

4-H premiums will be paid using the X-factor. The X-factor system ensures that all monies available for premiums are distributed to those 4-H members who exhibited their projects. *X-factors are unit value figures and not dollars and cents.* Premiums may not be awarded in every project area. At the conclusion of the 4-H Show, the computer tallies a total number of Xs awarded. The total of Xs is divided into the amount of premium money available from the State Agriculture Premium Fund. Premiums will be distributed at the following levels:

Level 1 – Livestock exhibit classes including dogs and cats: Blue = 7X, Red = 5X, White = 3X

Level 2 – All non-livestock classes including Animal Science: Blue = 5X, Red = 3X, White = 1X

Awards/Ribbons:

(Please note: No award is promised; the only ribbon that is required to be presented by our judges is Blue, Red or White. All the other awards/ribbons are up to the judges' discretion.)

Blue, Red, White Ribbons– Every project will receive one of the following ribbons: Blue is the highest, Red is 2nd highest, and White is lowest.

Best of Show– May be given to a 4-H member whose project is judged to be the best out of the WHOLE project area(s). (Multiple project areas may be combined together in awarding Best of Show, due to the number of entries, at 4-H staff's discretion.)

Reserve Best of Show– Given to a 4-H member whose project is judged to be the 2nd best out of the WHOLE project area(s). (Multiple project areas may be combined together in awarding Reserve Best of Show, due to the number of entries, at 4-H staff's discretion.)

Outstanding Presenter– Given to the 4-H member based on enthusiasm, knowledge in the project area, ability to communicate, speaking skills and passion—not judging the quality of the project, necessarily, but more so the member's presentation/discussion. (This award is given out ONLY if there are 5 or more projects at FairEntry sign up in a specific project area.)

State Fair Delegate– Given to a 4-H member whose project is 4-H state fair worthy and has followed all the project criteria. **Only given in areas that are state fair eligible.**

State Fair Alternate– Given to a 4-H member whose project is 4-H state fair worthy and has followed all the project criteria. This 4-H member will be able to go to state fair if the Delegate selected chooses not to go. **Only given in areas that are state fair eligible.**

Champion– Given out at livestock/small animal shows as the best in their specific class.

Reserve Champion– Given out at livestock/small animal shows as the next best in their specific class.

Grievance Procedures:

Concerns and questions should be addressed to the Extension staff. Direct concerns to the Unit County Director, Unit Educator or County Program Coordinator.

State 4-H Fair Policies and Rules: *see page 8*

State Fair Date for Whiteside County: SUNDAY, August 16, 2026

STATE FAIR POLICIES AND RULES

Exhibitors:

1. Exhibitors must have been pre-selected by their county 4-H Extension program as a state fair exhibitor.
2. Exhibitors must be currently enrolled as a 4-H member and have been at least 8 years old as of September 1, 2025. Parents and leaders should make provisions for the adequate care and supervision of exhibitors.
3. Exhibitors must be enrolled in the project or have participated in the activity in which they are exhibiting during the current 4-H year. Due to the nature of the conference judging process, exhibitors must be present with the exhibit on their assigned county exhibition day. Scheduling adjustments for religious reasons may be requested by contacting the Illinois State 4-H Office at illinois4H@illinois.edu by August 1, 2026.
4. Exhibitors must be present for judging. No Skype or Face Time sessions will be allowed. If a 4-H member needs a reasonable accommodation to participate in the General Project Show, please contact the Illinois State 4-H Office at illinois4H@illinois.edu by August 1, 2026.

Entry Procedure:

5. Local Extension offices will make all entries for their 4-H members via ZSuite by August 1, 2026.
6. Each county may make the number of entries allowed in each area as stated. Counties with more than 500 members are allowed 12 additional exhibits/exhibitors for state fair. These additional exhibits may be entered in any class/classes of the county's choosing. Current enrollment figures should be used to determine entry numbers. Multi-county Extension units have the option of combining enrollments from all counties within the unit to determine a total number of entries, using the quota systems. This procedure, if used, must be used for ALL State Fair class entries from that multi-county unit.

General Exhibit Guidelines:

7. All exhibits must be products of the current 4-H year (September 1, 2025-August 16, 2026). The same product that is selected at the county level must be the one exhibited at the State Fair (except for Food & Nutrition (must be the same recipe), Agronomy, Floriculture and Vegetable Gardening exhibits (must be the same specie/type, i.e. slicing tomatoes, snap beans, onions, etc.). Modifications can be made to the original county exhibit to meet State Fair class requirements or to incorporate suggested improvements made by the local judge. Determination of exhibit eligibility rests solely with the University of Illinois Extension Assistant Dean and Director, 4-H, and designated persons.
8. A 4-H member may enter only one individual exhibit and one group exhibit in the 4-H General Project Show. This also applies to exhibitors who are enrolled in projects in two different counties. If they are identified as a state fair delegate in two counties, they will have to choose one individual and/or group project to exhibit.
9. Exhibits illustrating inappropriate subject matter and/or graphics are not acceptable. The Superintendents reserve the right to remove exhibits deemed inappropriate or dangerous for youth audiences. The content of any 4-H competitive presentation does not necessarily reflect the beliefs or views of the Illinois State Fair or the University of Illinois Extension 4-H program.
10. Some exhibit areas may have size limitations. Read the descriptions carefully. Please choose a display size which is most appropriate for the exhibit you are bringing. Larger does not always mean better; use good judgment in creating your exhibit. Exhibitors will need to carry their project from the distant parking lots on the fairgrounds.

11. INNOVATION CLASSES are open to all 4-H members in the project areas as listed. Members choosing to exhibit in the Innovation class may be enrolled in any level of the project they are studying. Members choosing to exhibit in the Innovation class decide the best way to show their project mastery and knowledge for the year in that project category. Some suggestions are provided for each category, but members may choose any method they want for demonstrating project learning as long as it does not fit in any other class in that category. Only selected projects categories have an Innovation option.
12. READY4LIFE CLASSES (Career & Entrepreneurship Exploration) are open to any 4-H member who was at least 11 by September 1, 2025. Members choosing to exhibit in the Ready4Life class may be enrolled in any level of the project they are studying. Exhibits should show the connection between the project area and related career or business opportunities. Members may choose any method they want for demonstrating project learning. Counties are eligible to send one Ready4Life exhibit for each project category in addition to the total allowed for that division.

Exhibit Judging Procedure & Schedule:

13. The County Extension office will provide official exhibit tags for all exhibitors prior to the state fair. This entry tag should be completely filled out and securely attached to the exhibit. County exhibit tags and ribbons should be removed.
14. All exhibitors from a county will exhibit the same day: **for Whiteside it is Sunday, August 16**, this year. A 4-H member may also show in the junior livestock show, but they must be present at the required time for their general project judging. If possible, attempts will be made to accommodate livestock exhibitors within the judging time span, but no premium will be awarded if the exhibitor misses their judging time.
15. The General Project Exhibit will be held in the Orr Building of the state fairgrounds. Members must drop off their projects any time from 8 to 9:30 a.m. All projects should be in place by 9:30 a.m. Judging is scheduled throughout the day. The judging schedule will be posted in each area. Members should check the judging schedule and return to the judging area about 10 minutes before their scheduled judging time. Projects must remain on display throughout the day until 3:30 p.m. All projects must be removed no later than 4:30 p.m. daily. If you cannot stay until 3:30 p.m., you may make arrangements with another person from your county to pick up your project on your behalf, as long as you provide them your claim ticket.

Recognition:

16. All exhibitors will receive an Award of Excellence ribbon for participating. Approximately 25% of the exhibitors will be awarded Superior awards at the judges' discretion. Judges take into account the display and information provided during the interview in determining Superior awards. Exhibitors who do not follow the exhibit class guidelines and requirements are ineligible to receive a Superior award. The judge's decision that is posted on the official judge's class list is final unless it has been determined that an exhibitor has not followed the guidelines or rules for that exhibit class.
17. Premium checks will be awarded to those exhibitors who receive a Superior award. The amount of the individual premium is determined by total number of Superior awards given. Exhibits must remain on display until the posted release time or whenever judging is completed, whichever is later.
18. Premiums offered by Fair in the 4-H division total \$15,000. NOTE: The Department of Agriculture shall use its best efforts to secure sufficient appropriations to fund premiums. In any year for which the General Assembly of the State of Illinois fails to make an appropriation sufficient to pay such premiums, premium amounts may not be accurately reflected in this document.

All exhibits entered in the Costume Design & Clothing Embellishment projects will be judged based on their creativity, planning, and execution. Exhibitors bringing garments should not wear their garments when they arrive for judging. The garment will be reviewed by the judges for construction first. Exhibitors will be asked to change into the garment as the second step of the judging process. For complicated costumes, judges may decide to waive the requirement to try on the outfit if they feel photos included in the Costume Design Workbook show the fit. If the garment was created for another individual, that person can come to judging to model the outfit, or photos of that person in the outfit can be supplied. (Only the exhibitor who made the garment is eligible for ribbon and premium.) If a pattern was used to make the item, the pattern instructions, either written or electronic, are to be included with the exhibit. Exhibit tags should be attached to the garment (preferably with a safety pin and string), not to the hanger. Garments may be worn before exhibiting but should be in good, clean condition. Both projects require youth to complete a project workbook and bring it to judging.

All clothing projects in these categories should follow copyright guidelines. See project resource guides for additional details.

Costume design members wishing to be judged primarily on the sewing construction techniques and fit of their costume should consider entering the Sewing projects instead of Costume Design. The level to be entered will depend on the sewing techniques used.

SEWING 1-3

All exhibits entered in Sewing 1-3 will be judged based on their construction and fit (if applicable). Exhibitors bringing garments should not wear their garments when they arrive for judging. The garment will be reviewed by the judges for construction first. Exhibitors will be asked to change into the garment as the second step of the judging process. If the garment was constructed for another individual, that individual must be present to wear the garment for the judge. (Only the exhibitor who made the garment is eligible for ribbon and premium.) Construction and appearance

will both be considered during judging. If a pattern was used to make the item, the pattern instructions, either written or electronic, are to be included with the exhibit. Exhibit tags should be attached to the garment, not to the hanger.

This will allow fairgoers to view the exhibits on display. - Scrapbooking (2 total from 50345, 50346, 50347)

Exhibitors must be enrolled in the Visual Arts project category in which they are exhibiting. Exhibitors are encouraged to date the project when it is made. Exhibitors must be able to carry or cart their exhibits across the fairgrounds from the parking lots. All visual arts exhibits are evaluated

using a visual arts rubric, which considers correct use of design elements, craftsmanship, and creativity.

Articles exhibited must be an original design created by the exhibitor (except in Heritage Arts, which may follow a pattern). Copyrighted or trademarked designs are not acceptable; this includes team, school logos, and/or characters from movies such as Mickey Mouse, Iron Man, etc. Kits and preformed molds are not considered original and are not acceptable in any Visual Arts Class. Combining parts of different patterns (pictures, photographs, images from the internet or a magazine) with the member's own ideas can result in an original design, but simply changing the color, pattern, and/or size of a pattern does NOT make the design original. This also applies to ideas found on a site such as Pinterest. If you see something on Pinterest that you like, you can use that idea as your inspiration; however, create something that is fundamentally different. It **MUST NOT BE AN EXACT REPLICA OF** something the judge can search for and find on Pinterest. The exhibit may combine parts of different patterns and/or ideas with the concepts of the member; however, changing the color or changing the size of the item or pattern used does NOT make it original. If you create an exact replica of what you see somewhere else, it is not your original design. If a photo, sketch, or other idea source was used, submit it with your entry, firmly attached to your exhibit. Be prepared to explain how and where you got the idea for this project.

When utilizing repurposed materials, source wisely to avoid materials from old furniture, painted wood, or metal objects that may contain lead-based paint. Items manufactured before 1978 are particularly risky. If you are unsure, lead testing kits to check painted surfaces are available at hardware stores. Consider safely stripping or sealing unknown paint with a non-toxic barrier to prevent exposure.

Use of the 4-H Clover:

Chartered 4-H clubs and enrolled 4-H members are authorized to use the 4-H Name and Emblem. This includes permission for an enrolled 4-H member to use the 4-H name and emblem in exhibits created for personal use and as part of 4-H sponsored events. This includes 4-H decorated cookies, a 4-H clover printed for use in a scrapbook or included as part of any other 4-H exhibit. Use of the green clover shaped image is not protected. The 4-H “emblem” is distinguished by the four H’s that signify Head, Heart, Hands and Health. No creative rendering, changes in color or shape of the official 4-H emblem is allowed.

NOTE – Any use of the 4-H name and emblem on items intended as gifts or for sale locally requires prior permission from your local Extension office. Your Extension office will be able to provide you with the form which must be signed by the Extension County Director. Any uses of the 4-H name and emblem for sale or promotion online, and/or in statewide events should be signed by the Illinois 4-H Program Leader (Illinois4H@illinois.edu).

Quilts entered in Visual Arts should **ONLY** be entered in the Quilting Project area in either Level 1 You Can Quilt (SF 50331) OR Level 2 Quilting the Best Better (SF 50331). All work on the quilt **MUST** be completed by the 4-H member. You cannot exhibit a quilt that was quilted by someone else.

Unless otherwise noted, due to space limitations, projects should be no larger than 48" x 48".

FINE ART & DESIGN

Visual Arts Chalk/Carbon/Pigment (Drawing and Painting): Division A, B, or C
Enter the division based on the type of material on which the art was created.

50336A CHALK/CARBON/PIGMENT (DRAWING & PAINTING)

Any original artwork created on canvas using traditional materials such as pencils, chalk, pens, ink, paint, charcoal, or dyes. All artwork must be either framed, matted, or otherwise prepared for display. Oil and acrylic paintings may be exhibited without glass or matting and are acceptable unframed if the canvas edges are finished and the piece is ready to hang. Watercolor, chalk, pen and ink, and similar media require protective covering, such as glass or a clear sleeve. Gallery-style frames and matted-only presentations are both acceptable, provided the piece is equipped for hanging. If the artwork is not designed to hang, exhibitors must include a photo showing how it will be displayed (e.g., on a stand or easel). There is no restriction on the type of mat used.

50336B CHALK /CARBON/PIGMENT (DRAWING & PAINTING): DIVISION B: PAPER

Any original artwork created on paper using traditional materials such as pencils, chalk, pens, ink, paint, charcoal, or dyes. All artwork must be either framed, matted, or otherwise prepared for display. Oil and acrylic paintings may be exhibited without glass or matting and are acceptable unframed if the piece is ready to hang. Watercolor, chalk, pen and ink, and similar media require protective covering, such as glass or a clear sleeve. Gallery-style frames and matted-only presentations are both acceptable, provided the piece is equipped for hanging. If the artwork is not designed to hang, exhibitors must include a photo showing how it will be displayed (e.g., on a stand or easel). There is no restriction on the type of mat used.

50336C CHALK/CARBON/PIGMENT (DRAWING & PAINTING) DIVISION C: CLAY, GLASS, WOOD, METAL, TEXTILES

Any original artwork created on clay, glass, wood, metal, or textiles using traditional materials such as pencils, chalk, pens, ink, paint, charcoal, or dyes. Original glaze painting on pre-formed clay surfaces is acceptable, provided the design demonstrates creativity and artistic effort. Simply adding a single color or minimal decoration, for example, painting a frog entirely green, does not meet the criteria for original artwork. All artwork must be either framed, matted, or otherwise prepared for display. If the artwork is not designed to hang, exhibitors must include a photo showing how it will be displayed (e.g., on a stand or easel). There is no restriction on the type of mat used. If you are painting on clothing, consider entering your work in the "Clothing Embellishment" project, "Applied" class.

50337 VISUAL ARTS: CLAY

Any original item made of clay may be fired or unfired, hand-formed or thrown on a wheel. Ceramics, oven-cured, cornstarch, air-dry/self-hardening, and fire-cured clays are acceptable. Modeling clay is not recommended as it does not harden and risks melting. Items can include, but are not limited to, clay statues, bowls, jewelry, etc. Pre-formed ceramics should refer to Visual Arts Chalk/Carbon/Pigment for guidance.

50338 VISUAL ARTS: COMPUTER-GENERATED ART

Any original artwork created using any software package, where all pixels must be entirely original. Exhibits may not contain scanned images, clip art, downloaded content, imported

graphics, or photographs. Photo mosaics are not permitted. Wood and metal pieces created through laser cutting software should be entered in this class, as should plastic artworks produced with a 3-D printer if they have an artistic focus. If the artwork is designed to hang, it must include protective covering, such as a glass frame, and be prepared for hanging. Laser-cut pieces not intended for hanging do not require protective covering or hanging hardware.

50370 GRAPHIC DESIGN

Any original art created in any software package that displays visual information, such as an advertisement, publication, website, or any other type of visual communication, by effectively combining text and graphics. If using clip art, downloaded images, imported images, or photographs, they must be either royalty-free or owned by the exhibitor.

50340A VISUAL ARTS: GLASS

Any original item made of glass. Possible items to exhibit include stained glass, etched glass (original design), mosaics made of glass, and glass beading.

50340B VISUAL ARTS: PLASTIC

Any original item made of plastic. Possible items to exhibit include plastic jewelry (friendly plastic); recycled plastic art; plastic that can be molded into 3D shapes.

Stepping stones can be entered as a Visual Arts exhibit in Glass & Plastic, however, they must have an intentional design created using glass and/or plastic, and the exhibitor must be prepared to discuss the design elements associated with their exhibit.

50342 VISUAL ARTS: METAL

Any original item made of metal, such as a sculpture, a tin punch, an engraved metal, or jewelry. Items intended for industrial use (such as tools and/or shop items) are not considered part of this Visual Arts project and are not eligible for entry. Metal items that have been partially or totally created using laser cutting programs/devices should be entered in Computer-Generated Art.

50350 VISUAL ARTS: OPEN FORM & EMERGING TECHNIQUES

Any original artwork that explores unconventional formats, mixed media, or emerging creative technologies that reflect technique or design. Materials must be safe and age-appropriate. This project encourages experimentation while upholding elements and principles of design. Exhibitors are encouraged to include a brief artist statement describing their technique, inspiration, and creative process. This category is ideal for youth blending disciplines or exploring new artistic technologies. If a project fits more clearly within an existing category, it should be entered there instead.

50348 VISUAL ARTS: THREE-DIMENSIONAL DESIGN/MIXED MEDIA

Art pieces in this class must be comprised of at least three different media. To ensure a true mixed media composition, no single medium should dominate the piece. As a guideline, each medium should contribute roughly equally to the overall design. One material should not appear to be the main focus or make up the majority of the work. The piece should be either freestanding or should be prepared to be hung, and viewable from at least three different sides. Originality and design are important concepts. Craft kits, preformed, or assembled projects are not acceptable. Due to space limitations, any single exhibit in the Three-Dimensional Design/Mixed Media project should NOT exceed 48" x 48".

50349 VISUAL ARTS: WOOD

Any original item made of wood (wood carving, sculpture, collage, wood burning, etc.). Utilitarian wood items made from patterns or kits (outdoor or indoor furniture, shelves, etc.) should be entered in woodworking, NOT Visual Arts. Popsicle stick crafts are not acceptable for State Fair entry. Wood items that have been partially or totally created using laser cutting devices or programs should be entered in Computer-Generated Art. All Visual Arts Wood exhibits MUST have an artistic element that the exhibitor can explain. If the exhibit is a piece of furniture, it should be entered in Woodworking unless the primary focus is an artistic element, such as wood carving or wood burning. Exhibits will be judged using a Visual Arts Rubric and not a woodworking construction rubric.

ARTISAN CRAFTS

50339 VISUAL ARTS: FIBER

Any original item made of fiber. Examples include but are not limited to fabric collage, soft sculpture, stitchery, weaving, embroidery, cross-stitch, wearable art, hooking, braiding, duct tape artistry, string art, and baskets. Original cross-stitched, knitted, or crocheted items belong in this Fiber class. Non-original cross-stitched, knitted, or crocheted items should be entered in Heritage Arts. Machine-knit items are not appropriate for this class.

Exhibitors must bring a copy of the pattern used and be prepared to explain the traditional origins of their art. Any original item made of natural material, such as wreaths, cornhusk dolls, and similar creations. Items should be made of natural materials, but securing elements such as glue and wire may be used in the inner construction as long as they do not detract from the overall "natural" appearance. Engineered wood may be utilized as part of the exhibit to adhere natural materials, not as an element of the design. Articles such as dried pressed flowers may be displayed under glass if viewed as necessary for the protection/preservation of the natural materials. Candles and baskets are not suitable as entries and instead should be entered in Heritage Arts.

VISUAL ARTS: PAPER

50344B THREE-DIMENSIONAL PAPER ART

Exhibits should be a 3-dimensional image. Exhibits in the 3-dimensional category must have multiple layers and/or levels. This is defined as more than 3 layers, so the image truly has dimensions that can be viewed from at least three sides, or is at least ½" tall. Paper art which falls into the 3-dimensional category includes but is not limited to: Origami; Paper Mache; Paper models of architecture, paper-cut designs; quilling.

PLEASE NOTE THE FOLLOWING:

- Paper-cut designs and quilling have the potential, depending on the design, to align with either of the categories. The key design element is whether the design is 2-dimensional or 3-dimensional.
- Paper twist articles made from a kit or directions in a craft book or store ARE NOT original and not appropriate in the Visual Arts Paper exhibit area. Scrapbooks are also not eligible in Visual Arts Paper but should be exhibited in Visual Arts Scrapbooking.
- If creating origami, folded pieces should either be used to create a bigger project, such as a mobile or wreath, or multiple pieces of origami should be displayed. Exceptions would be if the exhibitor created their own folding pattern.
