Science on the Go!

October 5, 2013

Gwendolyn Brooks Middle School

The Mobile Science Lab rolled through Gwendolyn Brooks High School for their first annual 'S.T.E.M kick off celebration! It was an exciting day for the students and teachers alike. The participants were able to board the bus and learn about various animals, insects, robotics and what the Mobile Science Lab has to offer!

In addition to the mobile science lab the students also got a chance to meet and learn from Mr. Walid Johnson a former teacher from Chicago Tech Academy who has since started a company successful United NFC (Near Frequency Communications)

S.T.E.M Kick Off!

Congresswoman Robin Kelly greeted all the youth and parents via an online network, which further demonstrated the use of technology for the day!

Once all students and adults viewed the Mobile Science Lab they were instructed to have lunch in the cafeteria and then depart at their own leisure. During lunch the Gwendolyn Brooks JAZZ band performed two selections. It was a great
