AGING SERVICES
OF CHAMPAIGN COUNTY

Last Updated: August 2024

A NOTE FROM OUR SPONSORS

This resource guide was created by Aging Services of Champaign County, a local coalition of more than 200 community organizations with a shared mission to support older adults in our area. Aging Services includes both nonprofit and for-profit agencies.

The Resource Guide Sub-Committee was led and co-chaired by members of CRIS Healthy Aging and the University of Illinois Extension Program with the help of a fabulous team of committee members. We thank them for their time and efforts in this endeavor!

Ways to Save on Medications
1. Ask your pharmacist or physician if there are less expensive versions or generic options.
2. If the medication is not on your “approved” coverage list, ask if there is a similar drug on the “formulary” that could be used instead.
3. Ask if there is medication financial assistance through your health provider.
4. Contact the drug manufacturer to see if there is a medication discount card for seniors or those with disabilities. These cards can offer significant savings.
5. If you use Medicare, consult with a SHIP counselor to ensure you are on the right Part D Plan.

Food, Meals, Nutrition

The following locations can assist you if you need help keeping your pantry stocked or managing your nutrition. Food delivery agencies may provide grocery deliveries and/or pre-made meals delivered to your doorstep. Food banks offer free food to those in need. Congregate meal sites offer a safe space to enjoy a hot meal in a community setting for little or no fee. Nutritional counseling can help you make informed decisions about what you eat.

Did you know, many food services in the area (including delivery!) are provided to seniors without an income requirement?

Medicare & Medicaid Info

- Medicare is the government health insurance program serving people who are 65 and older or those who are permanently disabled or in End Stage Renal Disease.
- You **must** sign up for Parts B and D when you are eligible or Social Security will assess you a monthly fine.
 - Part A: hospitalization, skilled nursing care, and hospice
 - Part B: outpatient services, doctor appointments, and ambulance services
 - Part A & B: cover some home health costs.
 - Part D - Prescription Drug Plan: Everyone with Medicare is eligible for this coverage to help with brand name and generic prescriptions. There is extra help for those with limited income.
- Part C, known as Medicare Advantage, is a privately offered Medicare alternative. These plans bundle all coverage from Parts A and B with features such as dental or vision, and often include Part D coverage.
 - Managed care plans such as Health Maintenance Organizations (HMOs), Preferred Provider Organizations (PPOs) and Medical Savings Accounts (MSAs)
- Medicaid is a state and federal health insurance program for people with low income and limited assets. Medicaid covers medical and long-term care services. It covers prescription medications and nursing home care. In some cases, with prior authorization and approvals it may cover glasses, dental work, and hearing aids.

Palliative and Hospice Care

These services are offered to patients near the end of life to help manage and monitor a terminal illness.

- Palliative Care provides illness oversight, medication management, and symptom monitoring while a patient continues to seek curative treatments (i.e. physical and occupational therapy, chemo, etc.).
- Hospice Care provides expanded medical support for patients with an anticipated life expectancy of 6 months and are no longer seeking curative treatment. Hospice will bring in medical equipment like a hospital bed or bedside commode, will pick-up and deliver medications, and will monitor all medical care so families can focus on being family in the final days.

In-Home Caregiver Support

Paid professionals are trained to provide support for you and your loved one in the comfort of your home in an effort to keep you safe and independent at home, to avoid hospitalization or delay facility placement, and are tailored to your personal needs.

Home Care

Consists of nonmedical services provided in the home for clients who have difficulty managing their activities of daily living. Home care aides, hired privately or through an agency, may help with activities such as homemaking (cleaning and organization), transportation, medication management and reminders, companion visits, meal preparation, help with dressing, toileting, bathing, transportation services, and companionship.

Home Health Care

Consists of formal medical support provided by a licensed professional in the home. This can include nurses, physical, occupational or speech therapists, respiratory therapy, and social workers. They can administer medications, IVs, shots, and conduct medical tests and monitoring. Home care aides can assist with personal care only if licensed professionals are working in the home.

END-OF-LIFE PLANNING

Having your affairs in order is a gift that you can give your family. Making choices when you have some time and before you are in a crisis makes things easier than when times are tough. Some things to consider may be your Will, Physician Orders for Life Sustaining Treatment (POLST) forms (previously Do-Not-Resuscitate (DNR)), Power of Attorney (financial, healthcare, and durable), funeral and burial expenses, and more. Resources exist to help you navigate these important decisions.
