go.illinois.edu/4-HCloverClinic

(deadline January 20th)

Classes are filled on a first come, first served basis. Full class descriptions available within the online registration.

4-H Clover Clinic is a large multi-project workshop day for youth ages 8 to 18. This is a great event for 4-H members and youth who are new to 4-H. It is designed to give participants a chance to experience many different project areas. Classes are hands-on and taught by volunteers with expertise in their areas.

4-H CLOVER CLINIC 2025

Register online at go.illinois.edu/4-HCloverClinic (deadline Jan. 20).

Classes are filled on a first come, first served basis.

MORNING WORKSHOPS

Build a Birdhouse – Learn some basics of woodworking and build a small birdhouse.

Charcuterie Cups– Learn the art of creating charcuterie cups. Explore many meats, cheese, fruits and crackers!

Fossils Rock – Learn about the rock cycle and identify fossils using microscopes. Everyone will take a rock with a fossil home.

German Stars – Make traditional German Star ornaments using only strips of paper and some simple repeated folds.

Glass Etching - Design a vase or glass with your own design using tape, stickers, and etching cream.

Hydroponic Fun – Learn how plants can grow in water without soil and take home a seed hand!

Needle Felting – Learn how to needle felt and make your own needle felted watermelon coaster .

No Sew T-Shirt Bags – Upscale an old t-shirt into something new! Learn how to turn a t-shirt into a bag.

Paper Quilling – Learn how to use various paper quilling tools to make this 3-D type of paper art.

Paracord - A Sportsman's best Friend – Learn several essential knots and weave a custom paracord bracelet .

AFTERNOON WORKSHOPS

Art Journals – Decorate a special journal to keep all your drawings and sketches together.

Bead'n Around with Jewelry – Make your own beads from clay and then make bracelets with our beads! (Double session)

Buzz, Flutter and Fly, Our Beloved Pollinators in Action – Learn about bees, butterflies and hummingbirds and create crafts about pollinators!

Crafty Card Creations – Get creative and design your very own greeting cards at this card-making workshop!

Is it Magic? No, it's Kitchen Science!– Make and take a sweet microwave treat, while exploring kitchen science.

Let's Explore Field Guides – Create your own field guide with pre-printed information and images from rubbings of flowers, insects or leaves.

Mini Terrarium – Make your own mini terrarium with a plant, bark, and rock. Learn all the steps to create a fabulous tiny plant world.

Natural Dye – Learn all about the art and chemistry of plants and natural dying while using ancient Japanese shibori folding techniques.

Origami – Learn the basics of origami and make something to take home.

South Korean Gimhap – Learn about South Korean culture and learn to make Gimhap

Tissue Paper on Canvas Art – Combine tissue paper, plus glue and paint to create a one of a kind
