YLT
Illinois State 4-H
Youth Leadership Team

We're Looking for New Members!

You see them at state 4-H events in their bright green shirts. Now YOU can become an Illinois State 4-H Youth Leadership Team member.

- **Eligibility:** Age 16 to 19 by September 1, 2020.
- **Length of service:** Two years
- **Apply online:** go.illinois.edu/4HYLT. Look for the "application" at the bottom of the page.
- **Deadline:** June 1, 2020

The State Youth Leadership Team plans and implements the state Jr. Leadership Conference, plans and teaches the Speaking for Illinois 4-H program, and assists (behind the scenes and in front of the audience) for many other statewide events. Team members have the opportunity to serve on statewide planning committees and advisory groups, including the Illinois 4-H Foundation Board of Directors, Illinois Farm Bureau Youth Education Committee, Illini Summer Academies planning committee, and Teen Leadership Conference planning committee. Members also have the first opportunity to attend National 4-H Conference in Washington, D.C. each spring.

The 4-H Everyday Sportsman's Skills Challenge is currently underway and runs continuously until July 15, 2020. Interested 4-H Members are presented with three sportsman's skills at a time which they learn by viewing suggested videos. Once they've mastered the skills, they contact their 4-H leader or 4-H staff person to communicate what they've learned. Each skill level mastered gets the 4-H member entered into a drawing for a high quality multi-tool sponsored by Illinois Pheasants Forever. Click here for details: <https://4h.extension.illinois.edu/events/4-h-everyday-sportsmans-skills-challenge>

Collecting Food Access Stories

The Illinois 4-H State Office is putting a call out for stories that highlight the creative, innovative, and inspiring work that 4-H youth are doing to respond to the COVID-19 crisis. If you have a young person or a club in your area that is going out of their way to create greater food security and food access through service learning projects, advocacy, social media campaigns, or community service, we want to hear about them and help their work get highlighted by the U of I College of ACES Extension communication team. Please send a brief description of their project, a contact, and a photograph (where possible) of their work to mbbecker@illinois.edu. Thank you for all the important work you're doing to support our young people.

4-H Maker Monday Series

Maker Mondays is a YouTube Segment featuring the Illinois 4-H STEM Team, that guides youth through the process of designing, fabricating, and finishing anything we can think of, from cosplay inspired outfits, to custom themed drones and gadgets. These videos are designed to inspire and encourage youth to expand their imaginations, and build/make whatever they can think of. Our videos are not meant to transform youth into content experts, but rather into process experts with the tools and skills needed to find the answers to questions they have. Every video lists the materials and tools needed, and many videos will have accompanying downloads. In our first video, we make Mandalorian Armor from scratch using basic tools and a 3D printer! Click the link below to view: <https://www.youtube.com/watch?v=P7hhXcl-6fQ&feature=youtu.be>

4-H COVID Idea Challenge

5 finalists will be selected and pitch their idea to a panel of content experts as well as Maker and rapid prototyping experts, live streamed on Saturday, May 30 (link available the week of event). We will provide one person or collaborative team \$1000 in resources, and guidance to aid in the rapid prototyping of your idea. Additionally, if the idea qualifies, we will aid the winning person/team in sharing their idea to virtual platforms like the National Institute of Health's 3D Print Exchange (if 3D Printable), as well as other open source COVID 19 solutions platforms both locally and nationally. This is a timely opportunity to showcase the inner Maker in our youth, with the potential to impact their communities.
