- No refunds for cancellations after Friday, February 21, 2022.
- Class numbers are limited and will be filled on a first-come first-served basis. All enrollments will be dated upon arrival at the office.
- Mail-in Registration must be received by February 21, 2022.
- No refunds due to cancellations beyond our control (i.e. weather, power outage, flood, fire, blizzard).

University of Illinois, U.S.D.A and local Extension Councils Cooperating
University of Illinois Extension provides equal opportunities in programs and employment. If you need a reasonable accommodation to participate in any of our programs, please contact the Adams County Extension Office.

The Success of the Gardener's Palette program relies for the most part on the high caliber of speakers and vendors each year. University of Illinois Extension & Adams County Master Gardeners seek to organize sessions of educators, professionals and vendor options that will expand your knowledge in areas that are important to you.

Educational Sessions

9:00 AM - 10:00 AM

Gardening for Pollinators

Presented by Chris Enroth

What do pollinators do for us? Imagine how much an apple would cost if we had to pay a worker to climb around and pollinate the apple bloom. Pollinators are integral to the health and well-being of a garden and are essential for much of our vegetable production needs. Chris will discuss the importance of bees, butterflies and other pollinators and some basic methods for attracting them to your garden. As pollinator habitat dwindles, come find out what you can do to support nature’s most vital workers.

Greenhouse Production

Presented by Sarah Vogel

Backyard greenhouses have become increasingly popular for home gardeners. Join Horticulture Educator Sarah Vogel to discuss best management practices including pest management, sanitation, seed starting and fertilization methods to achieve maximum production.

Professional Pruning

Presented by Carey Boehm-Corrie

Learn how and when to prune common shrubs and trees. What to look for when pruning, what tools to use, and proper timing.

10:15 AM - 11:15 AM

Succulent/Fairy Garden Make and Take (Additional Cost \$20)

Presented by Tonya Teasley

We will create a little succulent planter with some fairy garden additions and how to incorporate them into a succulent planter.

Water Management in the Home Landscape

Presented by Chris Enroth

This program will address the issues surrounding the pressures on our nation’s water quality and provide design solutions for homeowners to reduce their impact on those downstream. Come learn the fundamentals and creative design strategies of bioswales, living roofs, rain gardens, permeable paving, and rain barrels. This program is a great opportunity to appreciate how small changes can make big impacts.

The Trouble with Trees - ROOTS 101

Presented by Carey Boehm-Corrie

Why trees fail in our landscapes - and how to avoid it. We will discuss growing practices, planting, mulching and maintenance.

11:20 AM - Noon *First Lunch or Managing Weeds in the Garden*

Managing Weeds in the Garden Presentation

Presented by Sarah Vogel

Pulling weeds is typically a least favorite garden task, but weed management can be achieved through additional means. Join Horticulture Educator Sarah Vogel to discuss control methods for weeds in several types of gardens and landscapes.

Educational Sessions

12:10 PM - 12:50 PM *Second Lunch or Managing Weeds in the Garden*

1:00 PM - 2:00 PM

Preparing Your Yards for Natural Disasters

Presented by Chris Enroth

Illinois can see the effects of natural disasters big and small every year. Is your landscape ready to face the next looming disaster? Join Illinois Extension horticulture educator Chris Enroth as he details what homeowners can do to prepare their yards to be more resilient to natural disasters in Illinois. The class will focus on how our trees and landscaping can be created to withstand wind, drought, and flooding.

Growing and Using Culinary Herbs

Presented by Deborah Lee

Are you intrigued by culinary herbs, but do not know how grow or use them? In this class, Deborah will discuss popular herbs; plus some terrific lesser-known ones. You will see lovely PowerPoint slides, sniff and look at herbs; then learn how to grow, harvest and use at least 13 easy-to-grow plants. A helpful study guide will allow for years of continued help.

Gardening with Wildlife (Via Live ZOOM)

Presented by Mary Fischer

Do you enjoy watching your nature outside your window? Deer, squirrels, rabbits, and other four-legged visitors to your garden can be entertaining as well as destructive. Let’s explore what you can do to enjoy the antics without the destruction. Mary will present this live via Zoom, and you will be able to ask her questions after her presentation.

2:15 PM - 3:15 PM

Herbal Vinegar - Make and Take (Additional Cost \$10)

Presented by Deborah Lee

Discover how simple and fun it is to make herbal vinegar. In this hands-on class, you will learn which vinegars to use and which herbs go well with each. Then, you will make your own herbal concoction to take home in a lovely bottle.

Peonies

Presented by Mona Tague

Everyone loves peonies; let Mona teach you how to grow the best peonies possible. She will give you guides for planting and how to divide your peony plants. Plus, she will touch on common diseases and treatments. Learn how to store peony stems for later bouquets in late June and maybe even July. Mona will also give you some tips on how to improve your photography skills when photographing your prized peonies.

All About Vegetables

Presented by Chris Miller

Proper planting and care of various vegetables and garden types. Discussion on disease and pest control. along with various strategies for adapting to recent shifting weather patterns and season extensions for gardeners.

1st Lunch 11:20 AM to Noon
2nd Lunch 12:10 PM to 12:50 PM
