

APPLICATION FOR UNIVERSITY OF ILLINOIS EXTENSION POLLINATOR POCKET CERTIFICATION

Flowering plants and their associated pollinators are responsible for an estimated one out of every four mouthfuls of food. We gardeners can be a positive influence on pollinator populations and encourage diversity by planting pollinator-friendly gardens. A pollinator-friendly garden is also a people-friendly garden as we enjoy many of the same plants.

Complete this application to certify your site as an official University of Illinois Extension Pollinator Pocket. We will review your application and, upon certification, your Pocket will be included in our Pollinator Pocket Registry. You may also choose to purchase a weatherproof sign to display, which identifies your site as an official Pollinator Pocket.

POLLINATOR POCKET REGISTRATION INFORMATION *(this information will be added to the Pollinator Pocket Registry)*

Registrant Name(s): *(Exactly as you would like it to appear on our registry)*

Pollinator Pocket Name: *(While this is optional, we encourage you to be creative!)*

Pollinator Pocket Address: _____

City: _____ **State:** _____ **Zip Code:** _____
