- INNOVATION CLASSES** are open to all 4-H members in the **project areas listed**. Members choosing to exhibit in the Innovation class may be enrolled in any level of the Project they are studying. Members choosing to exhibit in the Innovation class decide the best way to show off their project mastery and knowledge for the year in that project category. Some suggestions are provided for each category, but members may choose any method they want for demonstrating project learning as long as it does not fit in any other class in that category.

The following selected projects categories have an Innovation option:

Crops	Photography
Foods	Robotics
Geology	Theatre Arts
Health	Tractor
Interior Design	Video Filmmaking
Leadership	

- READY4LIFE CLASSES (Career & Entrepreneurship Exploration)** are open to any 4-H member who was at least 11 by September 1, 2019. Members choosing to exhibit in the Ready 4 Life class may be enrolled in **any level of the projects** they are studying. Exhibits should show the connection between the project area and related career or business opportunities. Members may choose any method they want for demonstrating project learning.
  - Exhibits in this category must include the following: a) a physical representation of the career or business product such as a model, prototype or display/portfolio that includes images of accomplished work; b) verbal or written explanations that demonstrate knowledge of the related career or business fields, potential careers, and the appropriate requirements for achievement in those fields. The judging criteria for this class values thoroughness of career and/or business exploration and pursuit above the workmanship of the physical specimen on display.  
**Counties are eligible to send one Ready 4 Life exhibit for each project**
- MAKER CLASSES** Exhibits in this category are designed to be multi-disciplinary in nature, innovative, and must not fit into any other exhibit category. Members in this class may be enrolled in **any of the projects**. To qualify for this category, your project **MUST** abide by the following guidelines:

  - The device must be something that can be used in everyday life by multiple people (a target audience), and **MUST** be manufactured/built by the exhibitor (If not fully manufactured by the exhibitor, the device **MUST** be modified structurally or be reprogramed to perform a different function other than what it was designed to do
  - Exhibit **MUST** be able to interact with the outside world. (e.g. an on off switch, input sensors, feedback, etc.)
  - Exhibits **MUST** include a detailed build log with instructions on how to make or build the exhibit, **AND** contain either a 3D rendering or detailed and labeled sketches of the device/product.
  - All parts and software used in the design/build **MUST** be listed in a detailed Bill of Materials including cost per item and total cost. Total time spent on the build must be documented in your build log.

In addition, exhibitors are **HIGHLY** encouraged to use tools such as 3-D printers, laser cutters, routers and/or other hand/power tools to help in the manufacturing process (**NOTE: Simply 3-D printing or laser cutting an object without the other specifications does not qualify as a Maker Project**). It is also **HIGHLY** encouraged that exhibits use Open Source Software and/or Hardware in the build. **Counties may submit 3 entries TOTAL combined from all Maker exhibit divisions.**

The dress is versatile enough to wear to school, a choir competition, or any summer party. The dress features a back zipper and skirt with three ruffles. Cindy discovered that ruffles are hard to sew but she overcame the challenge! For added flair, Cindy placed small jewels near the shoulder straps of the dress. She is keeping her accessories simple by wearing silver hoop earrings and silver sandals. Twelve-year-old Cindy is from Champaign County where she is a member of the Happy Helpers 4-H club. She enjoys many sports and is active in her school drama club. Way to go Cindy!

Jenny Graham looks stylish in her brightly colored sundress and pink jacket. Jenny is 13 years old and a member of the Busy Bees 4-H Club of Warren County. ## 2020 Clinton County 4-H Showbook

### General Project Classes

Visual Arts Articles exhibited must be an original design created by the exhibitor (except in heritage arts which may follow a pattern AND Fiber-Non Original Ages 8-10 ONLY). Copyrighted or trademarked designs are not acceptable; this includes Team or School logos. Kits and preformed molds are not considered original and are not acceptable in any Visual Arts Class. Combining parts of different patterns (pictures, photographs, images from the internet or a magazine) with the member's own ideas can result in an original design, but simply changing the color, pattern and/or size of a pattern does NOT make the design original. This also applies for ideas found on a site such as Pinterest. If you see something on Pinterest that you like, use the concept and create something different using the concept; however if it MUST NOT look exactly like something the judge can search for and find on Pinterest. The exhibit must combine parts of different patterns and/or ideas with the concepts of the member, however changing the color or changing the size of the item or pattern used does NOT make it original. If you create a replica of what you see somewhere else, it is not your original design. If a photo, sketch, or other idea source was used, submit it with your entry, firmly attached to your exhibit. Be prepared to explain how and where you got the idea for this project.
