

**2020 Clark County 4-H Fair
Virtual Rabbit Show**

Making the change to a virtual rabbit show is going to be challenging for all of us, but it also presents some advantages for our Youth. Due to the process involved with getting your entries to our Judge, please note the following:

1. Entries will be limited to 6 classes, without gender or breed divisions. You must upload all photos/video and information at the time of entry (you will only enter those animals that you have already taken pictures of). You may add or remove entries at any time between 6/13 and 7/13, they do not have to all be done at once.

The six classes will be:

4J - 4 Class Junior

4S - 4 Class Senior

6J - 6 Class Junior

6I - 6 Class Intermediate

6S - 6 Class Senior

SF - Single Fryer*

Due to restrictions, showmanship classes are not available.

*Due to the nature and restrictions of this market class, please note that entries MAY NOT be made for single fryers before July 6, 2020 (the date that the oldest entries bred for our physical fair would be 56 days old).

All Single Fryer entries MUST use the completed Single Fryer Project Card in their entry photos. This information will make it possible to judge fryers who may be under the minimum age of 56 days and weight of 3.08 at the time of entry, but who would have met or exceeded the minimum age and weight at a physical show.

2. You may enter a TOTAL of 10 classes, with no more than 2 rabbits entered in any division.
3. Refer to the ARBA Official Breed Identification Guide if you need help determining your rabbit's status as a 4 Class entry or a 6 Class entry.

Crossbred animals should be entered according to their predominant breed characteristics (this may include age and weight). Please feel free to contact Justin or Tresa for help deciding which category to enter your crossbreds under.

4. Prior to taking your entry photos, print and complete the Virtual Rabbit Show/Single Fryer Project Card for each entry. This project card MUST be prominently displayed in ALL photos/videos that are uploaded (for example, taped to the background behind the rabbit) with your entry.

5. Pose your entry according to ARBA type and take photos from the front, the left side, the rear, the right side.

One additional picture may be uploaded with your entry that is relevant to breed standard (showing ear length, markings, the eye, from over the rabbit showing a narrowing from hips to shoulders, etc). Adjust and repose your rabbit as necessary in order to take the best picture possible.

You MUST upload four different pictures, but no more than five.

Tips for making an outstanding entry!

- Groom and fit your rabbit exactly as you would for a live show. The last day to make your entries is NOT the time to try to get a rabbit clean and pretty! Start grooming your rabbit daily at least 1 to 2 weeks before the date you plan to take pictures and make your entries. This will give your rabbit valuable practice at being posed and give you an opportunity to prepare the best entry you can.
- Use a solid colored, neutral background. A blank project display board, or a disassembled cardboard box could be used as a background; be mindful of posing white or broken rabbits against a white background, and black or dark colored rabbits against a dark background. Make sure your project card is visible in each picture or video!
- The video must be continuous and filmed in a well-lit area outdoors in natural but not direct light. NO editing of the video is allowed. The video should include a 360-degree view of your rabbit as well as front, sides and rear view.
- Hold your phone camera horizontally from a distance that best captures entire animal (no more than 3 feet for rabbit), but where details can still be seen. Try to hold the camera as still as possible and use very little to no zooming.
- The exhibitor should consider the camera to be the judge. Use a level, solid surface to pose your rabbit. Make sure to use a towel or other material like a small carpet square to give your rabbit adequate traction on the surface. Pay attention to the color of the surface as well – a white rabbit's feet will blend in with white surfaces, etc.
- Have someone else take photos for you while YOU pose your rabbit. Try to take video at eye level to the middle of the rabbit – your photographer may need to kneel or crouch.
- At the beginning of your video state: your rabbit's variety/breed, and age using terms of buck or doe. Example: "This is a Mini-Rex junior doe."
- ALWAYS keep your rabbit safe! NEVER leave a rabbit unattended on an elevated posing surface. It is permissible to have ONE hand visible in the photos, covering the eyes of the rabbit if necessary to maintain control.
- Dress as you would for the physical show. While you typically would not be posing your own rabbit outside of showmanship classes, you will need to do that this year and there must be pictures. You may or may not appear in the pictures, but if you do you want to be properly presented along with your rabbit.
