

Crawford County

You have worked so hard on your 4-H projects and we are excited to see your work. Even though we can't see you in person this year, online judging is a chance to share what you have learned, and to get feedback from a judge to help you think about your goals and plans for next year. Exhibits will be judged in the closed-access FairEntry System. After judging is complete, we will look for different ways to share your exhibits for public viewing. Here are some tips to help you plan for your online judging experience:

1. Most exhibit will require a 4-H Project Report and three photos (a photo of the overall exhibit and 2 photos that provide a close up of a skill, technique or content area that you would like to report). In a small number of project areas, additional documentation is required. Examples include a video showing your exhibit in action (such as robotics, computer program and live animals) or additional word document/PDF (such as crop record or creative writing sample).
2. This year for online judging, a Microsoft PowerPoint or Google Slides option is available as an alternative to creating a physical poster presentation. If you have already started your poster, you can upload photos of your poster as previously described. The slideshow option is also available as an alternate to uploading several individual photo images. Slideshows should be no more than 10 slides. Slideshows of a maximum 20 slides are allowed for multi-year project binder/portfolio exhibits or large collection displays, including: My Financial Future: Adv., Entomology 3, RockHounds 1-2, Communications, Journalism, and Leadership 2-3.
3. An important part of the 4-H judging experience is to provide you an opportunity to share what you have learned with the judge. Because you are not able to meet in person with the judge, the [4-H Project Report](#) (or [Cloverbud Project Report](#)) is a key part of sharing what you have learned. A project report template is available for you and should be saved and uploaded with your FairEntry registration. This is required for every 4-H exhibit and should be no more than 1 page.
4. Each exhibit has different instructions on what documentation to upload into FairEntry. You can find the instructions for your project area and class after these tips. Showbook requirements still apply.
5. If you run into trouble with uploading your exhibit documentation, please contact April via email at knoblett@illinois.edu . We are here to help you!
6. Tips on Taking Photos of Your Exhibit:
 - Include a small card or piece of paper with your name and county in each photo
 - Remove glass or plastic before taking photos to avoid glare
 - Choose a location with good lighting to take photos of your exhibit – use natural lighting if possible.
7. Note: A few exhibit areas are difficult to share via photos. A video of no more than 3 minutes is required for robotics, computer science, video, and maker projects.
8. More detailed instructions for livestock, horse and dog contests are on the virtual show page.
9. Remember: judging comments can be helpful, but they are only one person's evaluation.

10. Once completed, exhibit photos/videos and awards will be posted for public viewing. This is a requirement for Ag Premium Eligibility. Remember that Ag Premium awards are subject to modification or cancellation in any year for which the General Assembly fails to make an appropriation to fund the premiums." (30 ILCS 120/14(d))

Live Animal Livestock Exhibit Guidelines:

Note that youth can choose to do a poster project under Animal Science when enrolled in any live animal project area.

Beef, Swine, Sheep, Goats, Dairy, Poultry & Rabbits.

April will be posting updates to classes soon, so please be on the lookout. The only classes that are currently changed are meat pen classes. Those classes will now be single entry classes and you may have 2 entries.

For all classes: Upload a around a 60 second video. Continuous video outside, 15 seconds side, 15 second front, 15 second top view (more for goats and sheep), 15 second rear views of animal moving. Please use example videos provided in this link as a guide:

<https://www.virtualstockshow.com/theamerican-videos>.

- Exhibitor should show to the camera as if it were the judge.
- Hold phone camera horizontally from a distance that best captures entire animal and exhibitor. Camera person should not zoom in and out. Please refer to video examples in this link for how to video each species: <https://www.virtualstockshow.com/theamerican-videos>
- RABBIT AND POULTRY MEAT PEN CLASSES WILL BE MOVING TO SINGLE ENTRY CLASSES. YOU MAY MAKE 2 ENTRIES. If you have already purchased or own your pen of 3, put 2 in market classes and then the third in a breed specific class. It is almost impossible to judge meat pens via video., so this was our only option. Age and weight rules still apply for the rabbits entered in the market meat class.
- Zooming in for 10 seconds is only required for udders on dairy animals and wing feathers and heads on poultry.
- For Poultry and rabbits, please show on a table and get a 360 degree view with your video
- You will indicate declared weights for market classes, animal birthdates for breeding classes, and breeds for all animals in FairEntry.
- Proper dress/show attire please.

Horse Show

Classes and details are still being looked at, please stay tuned.

For all classes: upload a video of between 1-2 minutes, not to exceed 3 minutes. Helmets are required when mounted on horseback.

Video upload instructions will be available soon.

Dog Show

You will upload a 60 second, 360 view including a shot of the pets teeth, in a video of your dog, as well as your dog on the move. The dog show will be judged on pet care.
