

DeKalb Choreboy & Choregirls 4-H Club Shows Appreciation for School & Covid Nurses

Who takes care of your kids at school when they are sick? Who has worked extra hard at school to keep students in school? THE SCHOOL NURSES! At the January meeting DeKalb Choreboys and Choregirls decided on a service project that would give back to the community. They decided to make treat baskets for school and health department nurses to show appreciation for all their hard work.

On February 5, the club members met at Meijer and carefully selected treats to put in the baskets for Valentine's Day. Members then filled each basket for the DeKalb and Sycamore school nurses as well as the Health Department Covid nurses. Each basket was accompanied by a card that one of the members made and delivered to the schools and health department as a surprise gift for Valentines Day.
