Colorful Creepy Crawling Bugs

Explore your creativity and create a handmade bug that shows off your personal taste! Learn to work with colorful glass by cutting, nipping, layering and heating. Fused glass is the process of "melting" glass pieces in a kiln to create one stunning piece of glass art. You will create two bugs. Once you're finished, your items will be taken off-site to be fired in the kiln, for pick up at a later date. Disclaimer: The glass and wire we will be using is sharp. If you have safety glasses, please bring them.

Bring a sack lunch if you are planning on staying all day. Registration is REQUIRED at:
