Instructions

For each time slot, indicate 1st, 2nd, and 3rd choice. Classroom space is limited and will be filled on a first come basis. Mail-in enrollments will be dated upon arrival. By applying online, you will know your schedule immediately.

For Online Registrations: web.extension.illinois.edu/abhps

For Mail-In Registrations:

Fill out the entire form. One registrant per enrollment form. Feel free to make copies!

For mail-in registrations, tear off registration section and mail to:

University of Illinois Extension

Adams County

330 S. 36th St.

Quincy, IL 62301

Include a check made payable to University of Illinois.

Deadline for Registration is Friday, February 21, 2020.

Cancellations will be accepted up to Friday, February 21, 2020. No refunds after this date.

Pre-registration is \$30/person for on-line and mail-in registrations. This includes lunch and printed materials.

**** If attending the MAKE and TAKE in Breakout Session 2, Registration needs to be completed by February 10. This session costs an additional \$15 to cover the cost of materials, bringing your total to \$45.**

Registrations after Friday, February 22, 2020, and at-the-door-registration, if space is available - \$40.00 per person (mail-in and online).

No refunds due to cancellations beyond our control. (i.e., weather, power outage, flood, fire, etc.)

Mail the completed form and check to:

University of Illinois Extension

Adams County

330 S. 36th St.

Quincy, IL 62301

- For each session, indicate order of preference by either 1, 2 or 3 (one being your first choice). If you do not do this and the session you pick is full, we will put you into a different session.
- Please return completed registration form along with payment (checks made payable to University of IL)
- No refunds for cancellations after Friday, February 21, 2020.
- Class numbers are limited and will be filled on a first-come first-served basis. All enrollments will be dated upon arrival at the office.
- Mail-in Registration must be received by February 21, 2020.
- No refunds due to cancellations beyond our control (i.e. weather, power outage, flood, fire, blizzard).

University of Illinois, U.S.D.A and local Extension Councils Cooperating
University of Illinois Extension provides equal opportunities in programs and employment. If you need a reasonable accommodation to participate in any of our programs, please contact the Adams County Extension Office.

The Success of the Gardener's Palette program relies for the most part on the high caliber of speakers and vendors each year. University of Illinois Extension & Adams County Master Gardeners seek to organize sessions of educators, professionals and vendor options that will expand your knowledge in areas that are important to you.

Educational Sessions

8:30 AM - 9:30 AM

Flavorful landscapes

Presented by Melinda Myers

Growing Attractive and Edible Landscapes - Increase the nutritional value and beauty of your landscape by incorporating attractive fruits and vegetables into the plan. Tips on creating a kitchen garden, containers filled with edible plants or mixing fruits and vegetables into your more traditional plantings will be discussed. Melinda will also provide design, planting, and care tips for popular vegetables. Plus, she'll feature new varieties with extra ornamental appeal!

9:45 AM - 10:45 AM

Houseplants - The New Gardening Obsession!

Presented by Melinda Myers

Tips for Indoor Gardening Success with Tropicals, Succulents and Flowering Plants. Add a bit of greenery and color to your home's décor while improving your indoor air quality and elevating your mood. Whether you're new to indoor gardening or considering giving it another try, Melinda will help you select the right plants for your indoor growing conditions, interior design and busy schedule. She'll provide tips on watering, fertilizing, transplanting and more to help you keep your indoor plants looking their best.

10:50 AM - 11:20 AM

Book Signing by Melinda Myers

We will be offering for purchase 2 books by Melinda Myers

Small Space Gardening \$19

Presented by Dr. Mike Dykstra

Information for the beginning as well as the experienced rose gardener

Selection of Roses - Control of diseases and predators - Care and Pruning of roses

1st Lunch 11:15 AM to 11:55 AM
2nd Lunch 12:00 M to 12:40 PM

Educational Sessions

1:00 PM - 2:00 PM

Landscaping for the Long-term

Presented by Chris Enroth

Have you recently purchased a new home, are on a budget, or would like to give your gardens a new look? Avoid potential pitfalls by phasing in your new landscape over the long-term. University of Illinois Extension Horticulture Educator Chris Enroth will discuss the best practices for phasing in the important elements first, while accounting for the future needs of your landscape.

Make-n-Take Succulent Workshop

Presented by Kim Clayton-Bush

In the seminar we will teach you how to plant, maintain and enjoy Succulents! Each person will pot up and take home baby succulents to grow and learn with. This session costs and additional \$15 to cover the cost of materials.

From Nature to Us to You...Producing Quality Native Plants

Presented by Kimberley Lovelace-Young

2:15 PM - 3:15 PM

Soil Testing Your Garden

Presented by Dave Hummel and Tad Wesley

Knowing your starting point is the only way to know you're feeding your lawn or garden what it really needs. Soil testing provides this information, but test results are only as good as the samples you give to the testing laboratory. Learn proper techniques to take a representative sample from your lawn or garden, submit it to a lab and how to interpret the results.

Container Gardening 101

Presented by Carey Boehm-Corrie

Build colorful, successful containers for sun, shade and in between - learn about soils, fertilizers, water and maintenance.

Landscaping Fact or Fiction

Presented by Chris Enroth

With our ever-expanding technology and connectedness, we have more information readily available than any human society in history. In our swirling whirlpool of digital communications, it can be hard to tell what is fact or what is fiction. Join University of Illinois Extension Horticulture Educator, Chris Enroth, as we dispel landscaping myths of products, trends, and management strategies and get to the science of gardening.
