Dear 4-H Families and Friends,

The 4-H year is now in full swing and before you know it, warmer weather will bring fair season right along with it. General Show projects must be signed up for by March 1st. These projects don't roll over in 4-H Online this year so be sure to double check that you are signed up for everything you want to learn more about. To add a project, email Jill! I also want to remind you that to show at the fair, you must give a talk or demonstration and attend at least 4 meetings. If you foresee a problem meeting these requirements, please contact Jill. Check with your club leader for additional club requirements and to see how many meetings you have attended.

February is a busy month for those of you in livestock projects! Don't forget to weigh-in your steers, take the YQCA training, and make sure you know the ownership deadlines for livestock! A great way to keep up with the news about workshops being hosted is by liking your local 4-H Facebook page. Don't worry, we will still write about them in your monthly newsletter!

Yours in 4-H,

Shelby R. Carlson

Project Highlight: MAKER

Have you heard about the new project? Maker! Over the last decade, Do-it-yourselfers have shown the world that you do not need to be an engineer or computer scientist to create useful, innovative devices, gadgets, and gizmos through what is known as the Maker Movement. In fact, with very little background, and a can-do attitude, almost anyone can enter the Maker world and create anything their imagination guides them to.

This year, Illinois 4-H has brought the Maker Movement to your doorstep through a Multi Media curriculum experience called DIY Make & Build! DIY Make and Build is an opportunity for youth to learn about design, engineering, manufacturing, electricity and computer programming while being innovative and imaginative. You can still add the Maker project until March 1!
