Session Descriptions

Common Problems & Troubleshooting

This session will look at the top problems that happen with your computer, how to recognize them, and how to fix them.

Information Literacy

This lesson shares the importance of knowing how to access and evaluate digital information. Being able to determine the quality, credibility, and validity of websites and how to use search strategies to find information are important skills.

Online Shopping

This lesson shares the importance of being safe while shopping online.

Netiquette, Video and Messaging basics

This lesson provides guidance on etiquette while sharing information on the internet. This lesson will also teach you how to video chat and message with friends and family.

Phone/Tablet Basics, Privacy & Security

This lesson shares the importance of creating strong passwords for use in digital environments. This lesson will also give you the chance to learn some important phone/tablet settings.

Social Media Basics, Parental Roles

This lesson shares the importance of keeping young people safe in digital environments. This lesson will also go over the basics of facebook and important settings.

Note: Teens will be available for a short time after lessons to answer questions. Teens are not experts in technology, but will do their best to answer questions. You are welcome to challenge their knowledge!
