

Dial-Gauge Pressure Canner Testing

Home canning is a great way to preserve a variety of foods. For safe pressure canning, University of Illinois Extension recommends testing your dial-gauge pressure canners at least once per year.

A star ★ indicates a county where testing is available. Visit extension.illinois.edu to find contact information for local offices.

While testing is not available in every county at this time, talk with your local Extension office. One-day testing clinics or drop-off testing may be available.
