

RURAL MATTERS

December 2019 – January 2020

Five counties. Five conversations. One region working together.

Join together with your neighbors to discuss the opportunities and challenges facing rural and small town communities in the Greater Peoria region. Each meeting is open to the public as a place to openly discuss issues—such as town **revitalization**, **small business development**, **industry, jobs, housing, and broadband**—and propose projects and programs that support community and economic development in your area. With your input and guidance, we can create a Comprehensive Economic Development Strategy that works for everyone.
