

SUMMER SELF-CARE

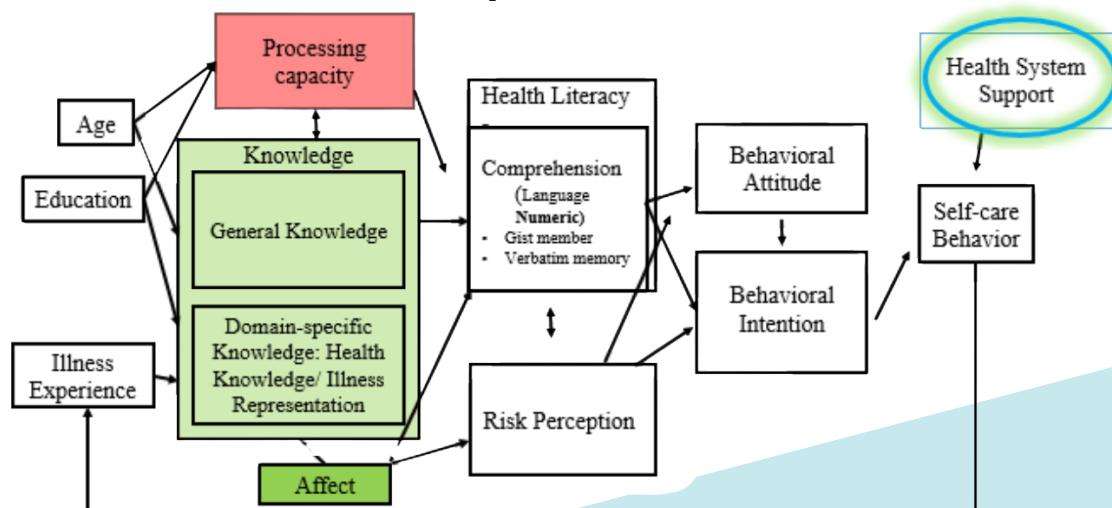

Week 7 • August 4, 2021 • Renato Azevedo, PhD

Harnessing Technology to Improve Healthcare Communications with Patients

This week's takeaways

- We are learning new ways to integrate technology into health communication every day in order to improve the patient experience
- Increasing communication between patients and providers can improve the quality of healthcare received
- By improving technologies, we can streamline patient-provider interactions

When considering age in improving technology, this framework can help us consider all factors

This series is hosted by University of Illinois Extension and the Interdisciplinary Health Sciences Institute. University of Illinois at Urbana-Champaign College of Agricultural, Consumer and Environmental Sciences - United States Department of Agriculture - Local Extension Councils Cooperating - University of Illinois Extension provides equal opportunities in programs and employment.
